Hi Ken-

Attached, please find EPA's comments on GS Roofing's Supplemental SCE Workplan. Please call or email if you have questions. Thanks.

Eva

Subject: GS Roofing Workplan Review

Eva,
As you probably noticed the GS Roofing workplan refers to the site as Former Bird Roofing. Confusingly, the same site has the following alias names: Former Bird, Bird and Son, CertainTeed Corp., Fiberboard Corp., Genstar Roofing, GS Roofing, and St. Gobain Corp.

DEQ has completed its review of the GS Roofing workplan. Our few comments will involve appropriate laboratory analyte suites for different areas. The project consultant is hoping to schedule field work at the end of September and into early October. Your assistance in facilitating the timely review of this workplan will be much appreciated.

Have a good weekend.

Sincerely,
Ken
